PROJECTS

[Ledger Demo](#)

- AI-powered invoicing platform for users. Create invoices in seconds by describing your work in plain language.
- Chat-to-invoice: describe it, get a structured invoice instantly
- Smart tax engine — GST, VAT, and USD Tax auto-applied
- Edit, copy, and batch-generate invoices via natural language
- RAG-powered context: remembers your clients and rates
- One-click PDF export and email delivery via Resend

[Portfolio](#)

Showcases a range of projects that reflect full-stack and AI engineering skills.

WORK EXPERIENCE

[Kynamite](#)

Remote — Full Stack Developer
March 2025 - Present

- Developing a feature-rich trading web application using Next.js and Tailwind CSS.
- Built backend APIs for authentication, trading, and core financial operations.
- Built and deployed multiple websites using Next.js and Prisma.

[iDesign.Market](#)

Delhi — FrontEnd Developer
Nov 2023 - Feb 2025 (Full Time)

- Developed and maintained SaaS-based ERP solutions using React, Redux, and Bootstrap, ensuring high performance and scalability.
- Led development of key features: File Manager, Inventory, Item Master, Global & Project BOM, and LMS — optimising user workflows and system efficiency.
- Designed and implemented LMS (Lead Management System) and global components using AG-Grid, React, and TypeScript, enabling seamless course management and user engagement.
- Integrated real-time data updates and state management using Redux, reducing unnecessary API calls.

[HKS Manpower Group](#)

Gurugram — FrontEnd Developer
May 2023 - Nov 2023 (Full Time)

- Built and deployed multiple websites using React.js and Tailwind CSS with responsive, optimised UI/UX across devices.
- Developed a GYM App in React Native with dynamic workout tracking, user authentication, and personalised fitness plans.
- Collaborated closely with backend teams to ensure efficient API integration, improving data-fetching performance.

[Samrika Critique Services Pvt Ltd](#)

Gurugram — FrontEnd Developer
July 2022 - Jan 2023 (Internship)

- Developed and designed multiple websites using React.js and Material UI.
